

GRAPHIC GUIDELINES

ALMPARTNERS

1. Logo

Logo

The logo consists of the ALM Partners test logo and a graphic symbol.

The colored logo is primarily used, although there are also other variations (more information on page 5).

Other variations of the logo.

Protected area

The protected area defines the minimum distance of the symbol from other elements.

The protected area for ALM Partners logo should be at least the width of the letter M in the text symbol on each side. The size and area scales with the logo.

The same rule also applies to a purely graphic sign.

Using logo on top of background

Colored logo on a white background.

White logo on dark background.

Just the graphic sign on a picture, if the logo is not clearly visible otherwise.

Misuse of the logo

Changing the dimensions is prohibited.

Changing the colors contrary to instructions is prohibited.

Dark logo on a dark image or otherwise poor visibility or placement.

All stretching, outlines and effects are prohibited.

Arial as an official communication font

Arial font is used as the official font of ALM Partners communication.

For headlines, it is used in large size and in bold, body text is written smaller and without bolding.

The text can also be written in white on a blue background.

Use Arial for all internal documents, all presentations, and general communication. Its simplicity and wide availability ensure consistency and readability across various platforms.

Helvetica Now Pro is a web & event font

We use Helvetica Now Pro as the primary font for the website and event materials since 2025. Its modern and versatile design reflects ALM Partners' brand's professional identity.

Helvetica Now Pro is better for the web than Arial due to its modernized design, improved legibility, and optimized letterforms for digital screens.

The use of colors in ALM materials.

White for empty space,
background, texts on blue.

Dark blue for background,
main color.

Light blue for
giving contrast.

Black for
texts.

Additional
colors, use if
needed.

The use of colors in ALM materials.

4. Values

5. Illustration

Personal photos can be separated from the background and used in the presentation material to emphasize and enliven the message.

In communication, high-quality images of events and spaces are used, as well as portraits that convey professionalism and respect.

The images are cropped in a way that limbs or heads are not cut off due to cropping. Unnecessary editing and the use of filters are aimed to be avoided.

6. Social media

Social media channels
